

BlueParrott C300-XT

Professional. Powerful. Discreet.

Engineered for superior communication in high-noise environments

Blocks out background noise

When your workplace is a busy environment with high levels of disruptive noise, and you need to make calls to colleagues or customers and still maintain focus, call clarity is of prime importance. The C300-XT delivers 80% noise cancellation – ensuring you can hear and be heard, however demanding the environment you work in.

Talk throughout the day

When working long shifts and being always available for colleagues and customers, your headset needs to be capable of working as hard as you do. With over 10 hours of talk time, and offering up to 13 days of standby time, the C300-XT is an all-day solution that won't let you down.

High performance made compact

Many workers need a discreet, public-friendly headset, but also need class-leading features that boost productivity and colleague collaboration. The C300-XT enables superior conversation quality in a lightweight design.

The C300-XT headset offers an integrated hardware/software solution via an open Software Development Kit. Customize what your BlueParrott can do, based on what you need it to do.

Focus on the job at hand

The C300-XT features BlueParrott VoiceControl™, allowing you to operate your headset hands-free – letting you talk to colleagues and customers safely and unhindered.

Control the headset your way

In addition to using the Parrott Button™ for push-to-talk conversations, you can also optimize how you use your C300-XT headset by customizing the Parrott Button™ to give you one-touch access to your favorite or most used features.

Built to last, whatever the conditions

Comfortable, lightweight, and IP54 rated for water and dust resistance, the C300-XT has been engineered for all-day wearing, whether you work indoors or outdoors – in temperatures cold or hot.
